

CONGO | 2018

5 DAYS BY HELICOPTER WITH DEREK DAMES SAFARIS

Congo HIGHLIGHTS

- forests, mountain gorilla & volcanoes -

Virunga National Park
Mountain & Lowland Gorilla

Scenic flight over the **Virunga National Park**

Senkwekwe gorilla orphanage

The active volcanoes & lava lakes of **Nyamuragira** and **Nyiragongo**

Lulimbi - Ishasha River Valley

Rwenzori Mountains

Island Tchegera & Lake Kiva

Helicopter ITINERARY

Day 1: Meet your helicopter and pilot at Entebbe, and fly on to Goma to clear customs into Congo. Our destination is Mikeno Lodge in the Virunga National Park. Afternoon scenic flight over the Virunga National Park. **Mikeno Lodge**

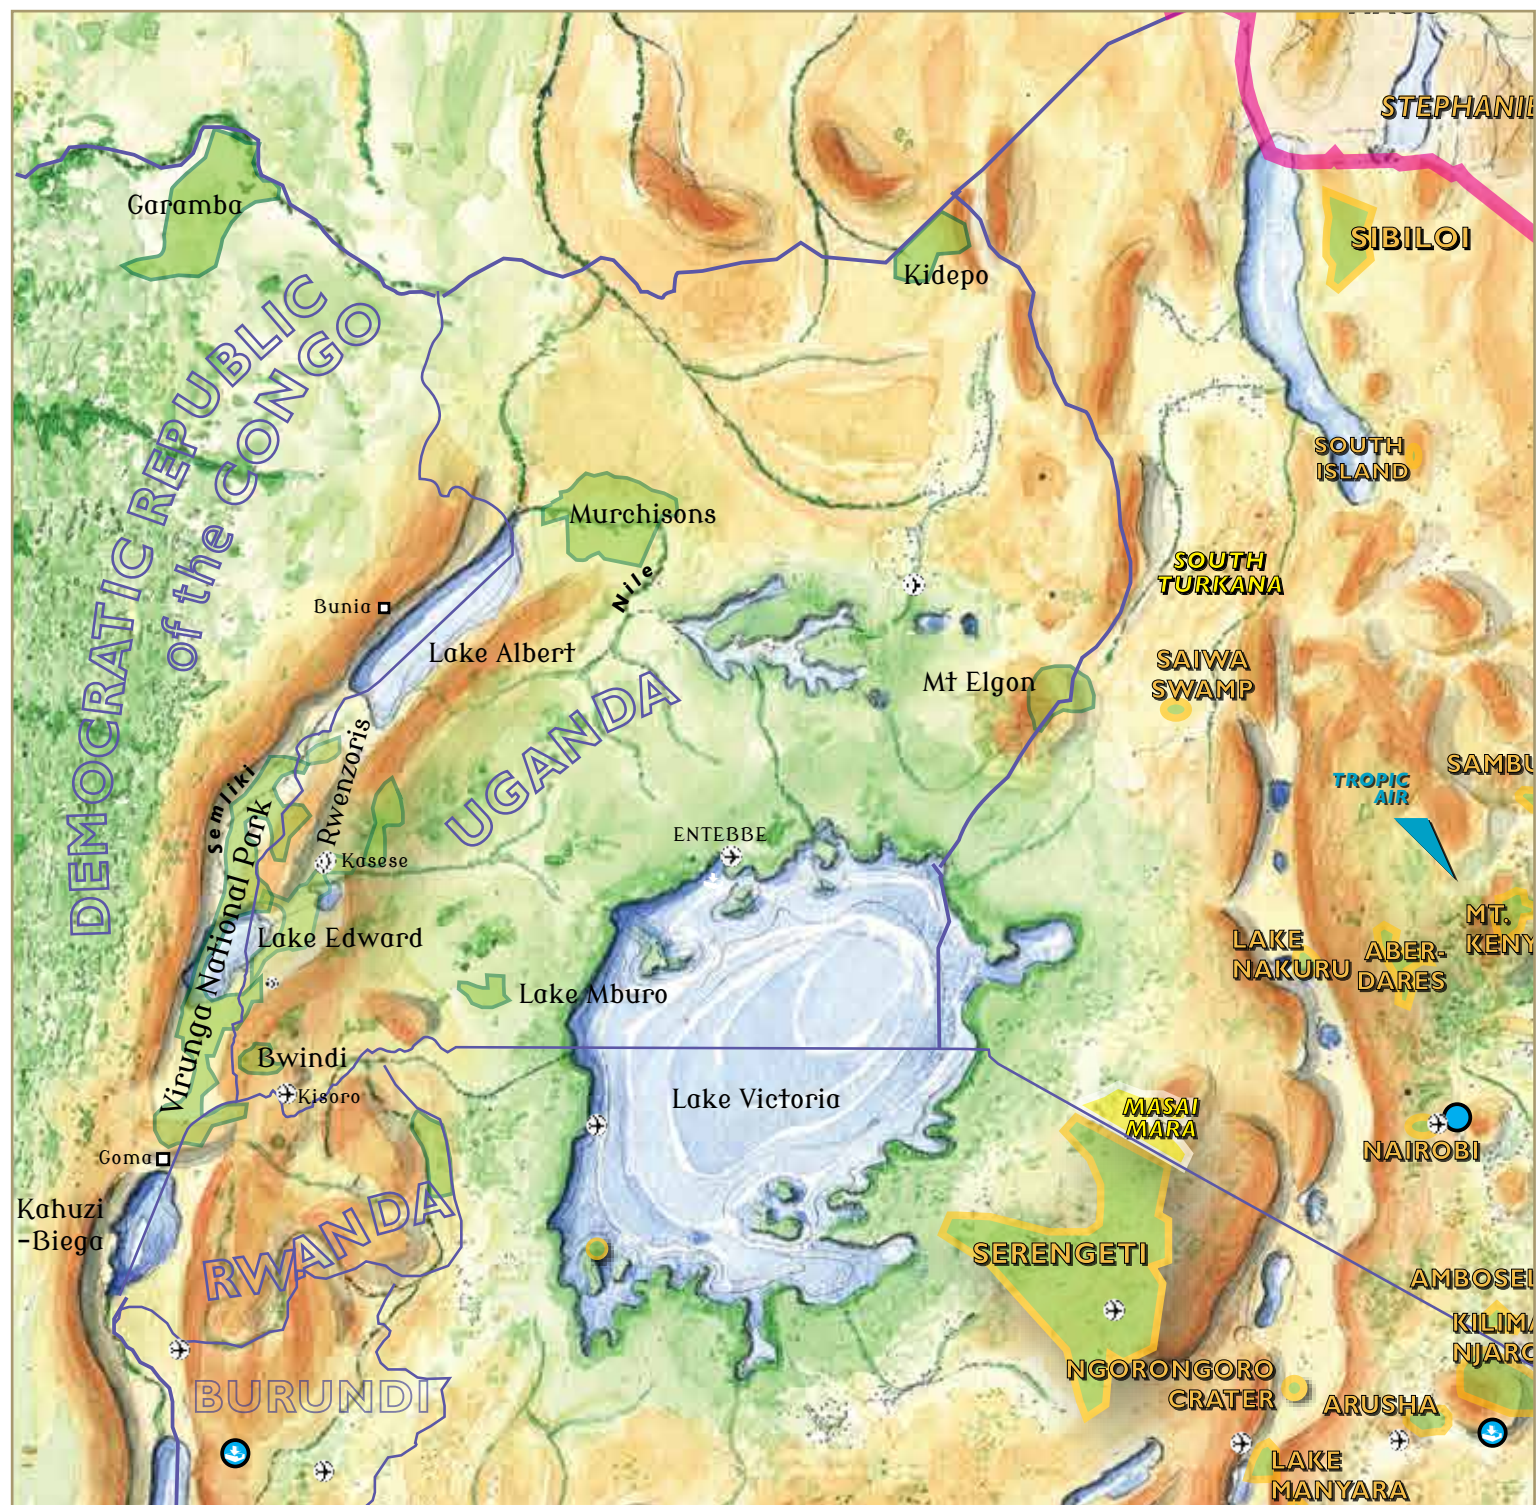

Day 2: Morning trek in search of the Mountain Gorilla. Heli-sundowner on the crater of Mount Nyamuragira. **Mikeno Lodge**

Day 3: Chimpanzee trek, and visit to the Senkwekwe gorilla orphanage. Afternoon flight to Nyiragongo, and a night in the volcano's shelters.

Day 4: Return to Mikeno for breakfast, and then move to Lulimbi Camp within the Ishasha River Valley, arriving in time for lunch. Explore Lake Edward and this eastern side of the Park by vehicle and on foot. **Lulimbi Camp**

Day 5: Dawn scenic flight over the Rwenzori Mountains, and on to Lake Kivu. **Tchegera Island**

Day 6: Heli safari ends with a final flight back to Entebbe Airport.

- Mountain Chain of -
VIRUNGA

The Virunga Mountains are a chain of 8 volcanoes running along the borders of Congo, Rwanda and Uganda, 7 of which are found in the Virunga National Park and only two are active – Mount Nyamuragira and Mount Nyiragongo.

VIRUNGA NATIONAL PARK

- Eastern Congo -

Virunga National Park is Africa's oldest park, established in 1925 by King Albert the 1st of Belgium.

An outstanding diversity of habitats, ranging from swamps and steppes to dense primeval forests, and from lava plains to the savannahs on the slopes of volcanoes. This is a pristine habitat rich in biodiversity, and unique in that it has both lowland and montane forest, with diverse species of trees, ferns, butterflies and birds. Protected groups of Lowland (Grauer's gorilla) and Mountain gorilla inhabit this region.

MIKENO LODGE

- Virunga National Park -

Located in the depth of the Virunga forest is Mikeno Lodge, with accommodation for 24 people in 12 thatched cottages.

This is Virunga National Park's first lodge, and not only is it luxury but it is built with maximum consideration to its natural surroundings. Mikeno has easy access to the Park's most treasured assets - the Mountain Gorilla, Chimpanzee and Mount Nyiragongo. Just a few minutes walk away is the Senkwekwe Centre for orphan gorilla.

FRESH WATER SPRINGS

- *Virunga National Park* -

Crystal clear swamps near Mount Tsiabeimu are filtered by layers of volcanic rock and sediment. The result is pristine turquoise waters and incredible palm forest - an idyllic habitat for wildlife and an array of bird life.

SEMLIKI RIVER

- Virunga National Park -

A vast 230km waterway connecting Lakes Edward and Albert, in Central Africa.

It follows the western foot of the Rwenzori Mountains, and the latter part of its course forms part of the border between Congo and Uganda. Within the Virunga National Park, a vast floodplain has evolved, attracting a variety of large and small mammals, including the rarely seen Okapi.

MOUNTAIN GORILLA

- *Virunga National Park* -

Coming face to face with a Mountain Gorilla is one of Africa's most exciting wildlife experiences! Gaining an insight into the behaviour and family dynamics of one of the world's rarest primates is nothing short of captivating.

The last remaining habitat of the Mountain Gorilla is within the Virunga Mountains. This highly endangered charismatic animal is the flagship species that has enthused the conservation of the entire array of wildlife and habitat that make up this unique part of our planet.

CHIMPANZEES

- *Virunga National Park* -

The forests, mountains and valleys of Virunga National Park are home to a highly protected population of Chimps. Visitors are welcome to trek in search of a habituated group, accompanied by rangers. Red tailed monkeys, colobus monkeys and olive baboons also thrive here, and the bird life is prolific.

SENKWEKWE

- Center for orphan gorilla -

Built in 2008, the Senkwekwe Center is a gorilla orphanage that provides accommodation for both the gorillas and their dedicated carers. The centre raises money from donations for the conservation of the Mountain Gorilla by improving park infrastructure, as well as supporting the development of local primary schools. The centre provides a chance to learn about the challenges that this species faces in the wild.

NYAMURAGIRA VOLCANO

- Virunga National Park -

Mount Nyamuragira has erupted over 40 times since 1885. It has a lava lake that simmers deep within the crater, and although very small and often disappears, scientists believe that in time this lava lake will become permanent.

MOUNT NYIRAGONGO

- *Virunga National Park* -

Mount Nyiragongo standing at 3,462 metres is Africa's most active volcano. It has been erupting almost continuously for the last century, and its main crater contains a magnificent lava lake.

NYIRAGONGO SHELTERS

- a night on the Volcano -

On the edge of the Nyiragongo crater within sight of the sweltering lava lake, stand eight simple cabins, coloured black to blend in perfectly with the lava rock surroundings.

It's a thrilling experience to watch the glowing molten lava throughout the evening!

LULIMBI

- & the Ishasha River Valley -

Lulimbi lies in the Ishasha Valley, on the eastern edge of the park's Central Sector. In striking contrast with the volcanoes and gorillas of the south, this beautiful area is dominated by savannah plains, through which flows the Ishasha River.

Lake Edward and the adjacent Ishasha river valley are home to the park's recovering hippo population - once the world's largest. The park's highest concentrations of elephant, buffalo, warthogs, and topi are found on the Rwindi plains of this central sector.

LULIMBI

- Tented Camp -

Lulimbi, originally a research station and then a home for refugees after the war, is now a site of 10 simple safari-style tents, each en-suite and very comfortable.

The tents have their own private veranda, to make the most of the fantastic setting on the banks of the Ishasha River - where elephant and an array of wildlife stream in and out, migrating between the Virunga National Park and the renowned Queen Elizabeth National Park on the opposite side.

This is a great spot from which to enjoy the wildlife riches of the vast savannah plains, by foot and vehicle, as well as the shores of Lake Edward.

RWENZORI MOUNTAINS

- Mountains of the Moon -

LAKE KIVU

- One of the African Great Lakes -

On border between Congo and Rwanda lies the diamond clear waters and sandy beaches of Lake Kivu.

This is the sixth largest lake in Africa, surrounded by landscape of extraordinary beauty, with the towering Virunga volcanoes and green slopes rich with tea, coffee and banana plantations.

TCHEGERA ISLAND

- Lake Kivu -

The tiny horse-shoe shaped island of Tchegera is situated off the northern shores of Lake Kivu, with a tented camp that offers views over the lake and 4 of the volcanoes in the Virunga range. A location more unique and tranquil than most!

A perfect place for kayaking, paddle boarding, birdwatching and relaxing.

Simple and comfortable safari-style

Meru tents lie on the black sandy shores, with small verandas under canvas, and each with its own hot-water bathrooms. Meals are served in the mess tent - a light and airy canvas room, surrounded by wooden decking.

Heli Safari Ends

Private helicopter and pilot / guides are provided by a leading air charter company based in East Africa, specialising in heli-safaris and adventures, with more than 14 years of experience in this field.

The Eurocopter AS 350 B3's are perfectly adapted to fly in East Africa's hot and high environments.

Aircraft are fitted with satellite tracking software, pilots are trained in 'first person on scene' first aid, and all precautions are carried out to ensure maximum safety and comfort.

Nyiragongo
© Max Melesi

- Clothing recommendation -

WHAT TO WEAR

Safaris are informal and comfort should be considered above all else.

Durable, loose fitting, lightweight cotton clothes are recommended in neutral colours, so as not to alarm wildlife whilst in the bush. Something warm is essential for early morning and evening activities. Footwear should not be heavy. A pair of comfortable walking shoes, trainers or desert boots is best.

The following is a guideline for the maximum clothing you need to bring. Due to the limited space in the helicopters personal luggage is limited to a maximum of 15kgs per person that must be packed in a soft duffel bag (No rigid bags or bags with wheels). Guests should also carry a small daypack for carrying personal items.
